# What is PrestaShop?

Founded in Paris in 2011, PrestaShop claims it is the leading eCommerce platform in Europe and Latin America. As an Open-source content management system, it handles all the basic infrastructure yet still allows you to freely customize nearly everything for your website.

# Features of PrestaShop

- Ease of Use

PrestaShop provides users with amazing tools to simplify the daily operating procedure for you. For example, the main dashboard is quite straightforward and easy to navigate. You can easily monitor everything from your sales, orders, profits... Additionally, you can navigate to any parts of your store using the main menu on the left.

- Payment Gateway

Apart from third-party providers, PrestaShop also provides PrestaShop Checkout. This Checkout solution is built with PayPal and integrates with various checkout options, including American Express, Mastercard, and many others. With this option, you can enable direct payment for your store, which means your customer can purchase without having to go to another site.

- Customization

As mentioned above, PrestaShop is an open-source website builder, and the customization possibility is endless. You're going to need two modules for your store, one that's easy to make fast, simple edit (User module) and an advanced module for tweaking the HTML, CSS, and JavaScript files to create a unique function for your site (Develop module).

# Features of PrestaShop

- Free & Open Source

It's completely free to download and install PrestaShop. However, the process of setting up your store can be a little bit tricky and you might need some technical skills to get it done.

- SEO-Friendly

SEO is the most important thing for any E-Commerce business. PrestaShop makes it very easy to develop SEO-friendly URLs. If you have basic knowledge of Search Engine Optimization, PrestaShop allows you to easily change Title tags, Meta Title, Meta Description, and other SEO-related attributes. It helps you to keep your online store up to date with your target audience.

- Cost

PrestaShop has zero cost for the first installation and it installs all the essential features to run your store initially. So, as a part of PrestaShop development services, if you wish to extend the functionality of your store to grow your business, then you have to purchase the add-ons as per your requirement and business strategy. PrestaShop has an add-on marketplace that holds a lot of modules according to your business strategy. Comparatively, the cost of the add-ons is lesser than or equal to other E-Commerce add-ons.

# How to Install PrestaShop?

THERE ARE MAINLY 3 WAYS TO INSTALL  
PRESTASHOP

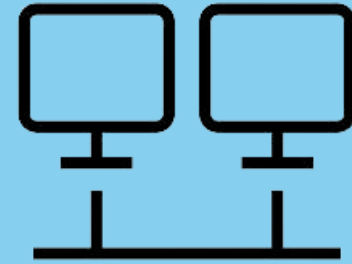

Manual Installation via  
MySQL + FTP

One-Click Installation with  
Hosting Provider

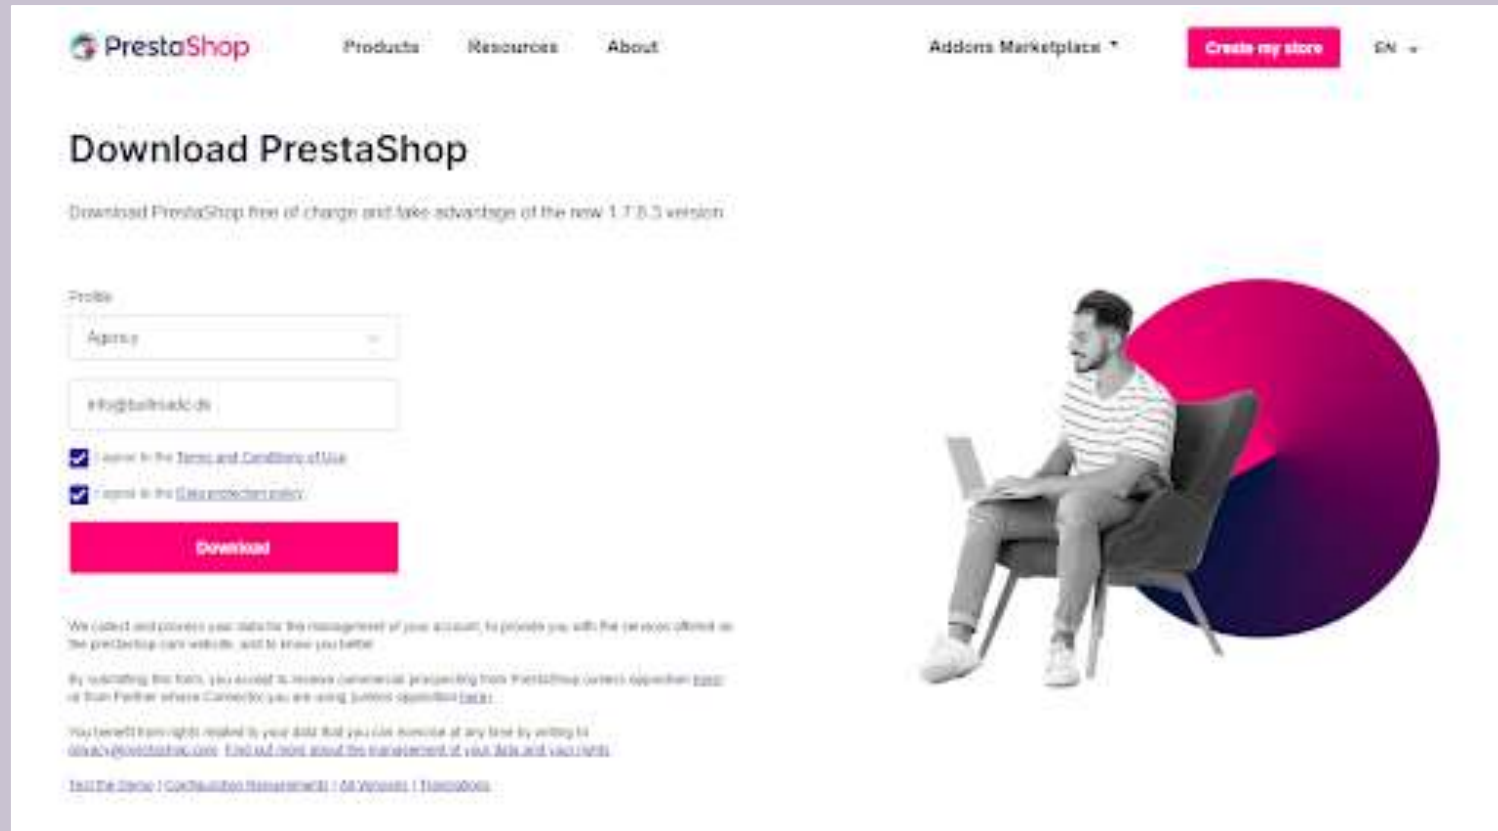

Localhost  
Installation

## Manual Installation via MySQL & FTP

### The Process

#### Step 1: Download PrestaShop

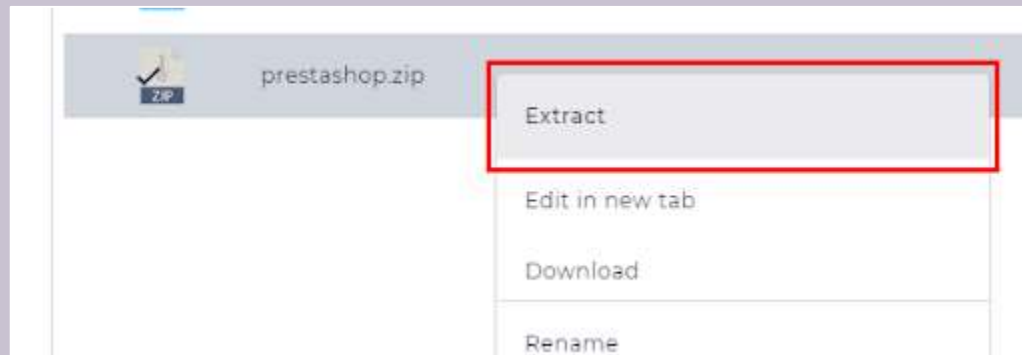

A screenshot of the PrestaShop website's download page. The page has a white background with a purple and pink gradient circle on the right side. A man is sitting in a chair, working on a laptop. The page features the PrestaShop logo, navigation links for Products, Resources, and About, and a link to the Addons Marketplace. A prominent pink button says 'Create my store'. The main heading is 'Download PrestaShop', followed by a subheading 'Download PrestaShop free of charge and take advantage of the new 1.7.8.3 version'. Below this is a form with a 'Profile' section containing a name field (filled with 'Agnes'), an email field (filled with 'info@tailorade.de'), and two checked checkboxes for 'I agree to the Terms and Conditions of Use' and 'I agree to the Data Protection Policy'. A large pink 'Download' button is at the bottom of the form. At the very bottom, there is small text about data collection and a link to the privacy policy.

## Manual Installation via MySQL & FTP

### Step 2: Uploading the Files on Your Server

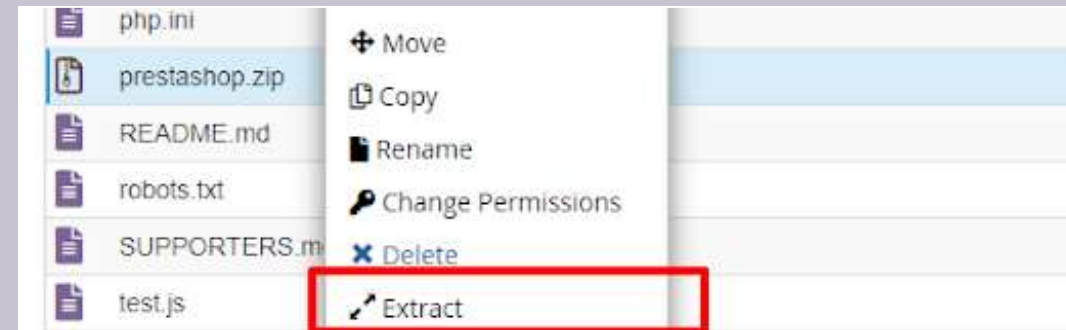

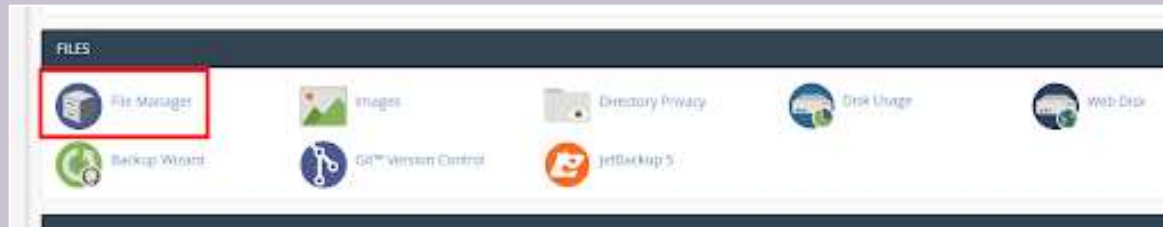

Navn	Type	Komprimeret størrel...	Be
 index.php	PHP Source File	347 KB	Ne
 Install_PrestaShop.html	Chrome HTML Document	1 KB	Ne
 prestashop.zip	ZIP-komprimeret mappe	72.292 KB	Ne

## Manual Installation via MySQL & FTP

### Step 2: Uploading the Files on Your Server

## Manual Installation via MySQL & FTP

### Step 3: Creating the Database

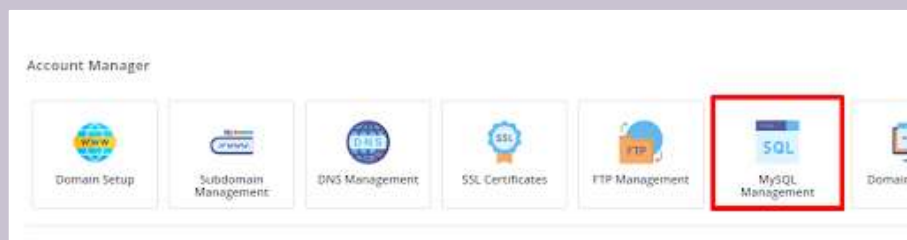

#### Step 1: Create A Database

New Database:

Note: 54 characters max.

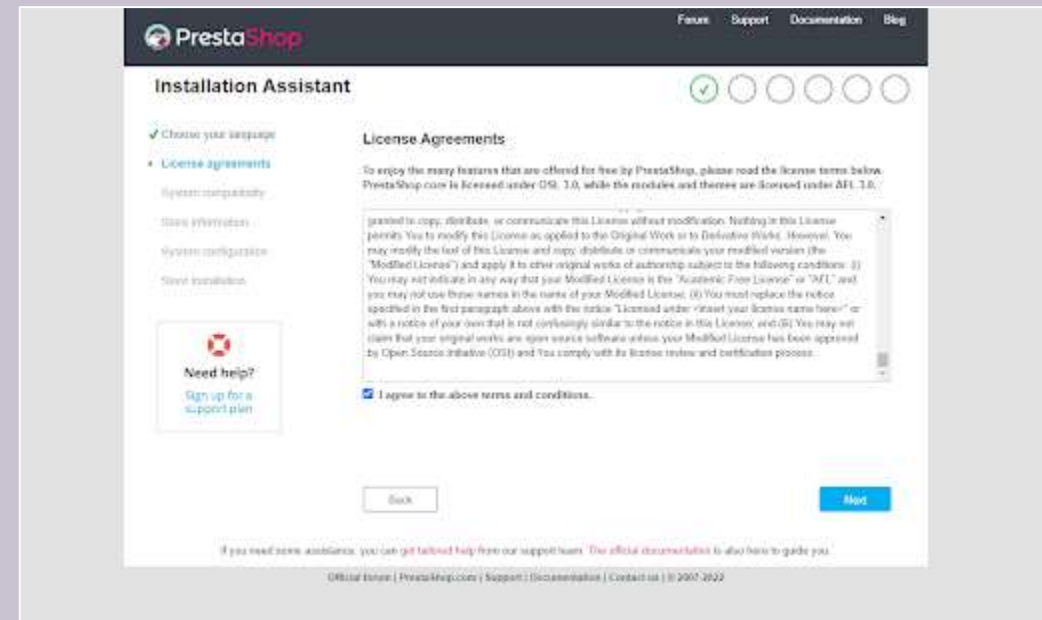

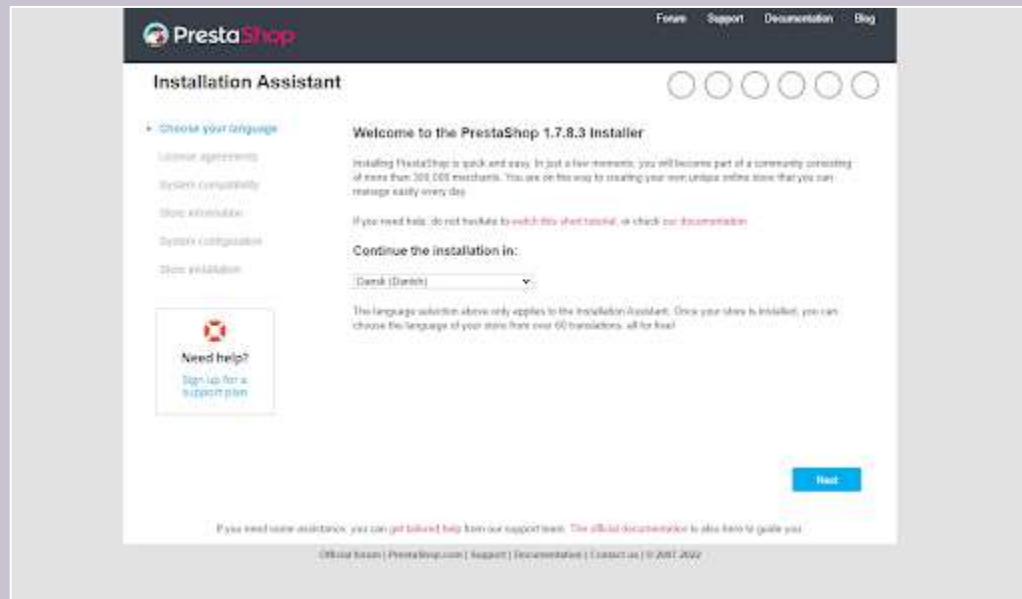

Next Step

Database Name:	<input type="text" value="prestashopdemo"/>
Database User:	<input type="text" value="prestashopdemo"/> <input checked="" type="checkbox"/> Same as database name
Database Password:	<input type="password" value="wV2uGT0t"/>
<input type="button" value="CREATE DATABASE"/>	

## Manual Installation via MySQL & FTP

### Step 4: Installing PrestaShop with the Installation Assistant

## Manual Installation via MySQL & FTP

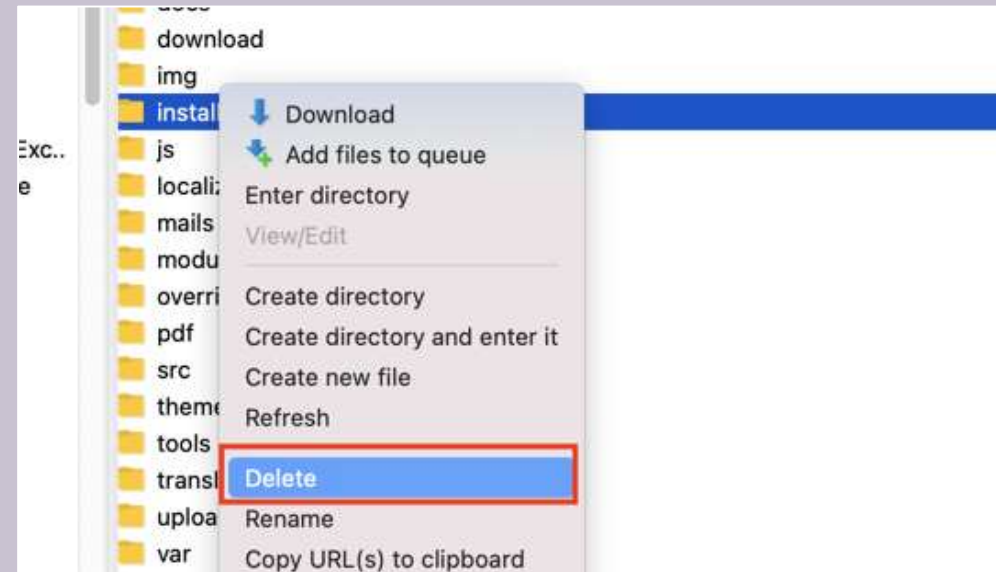

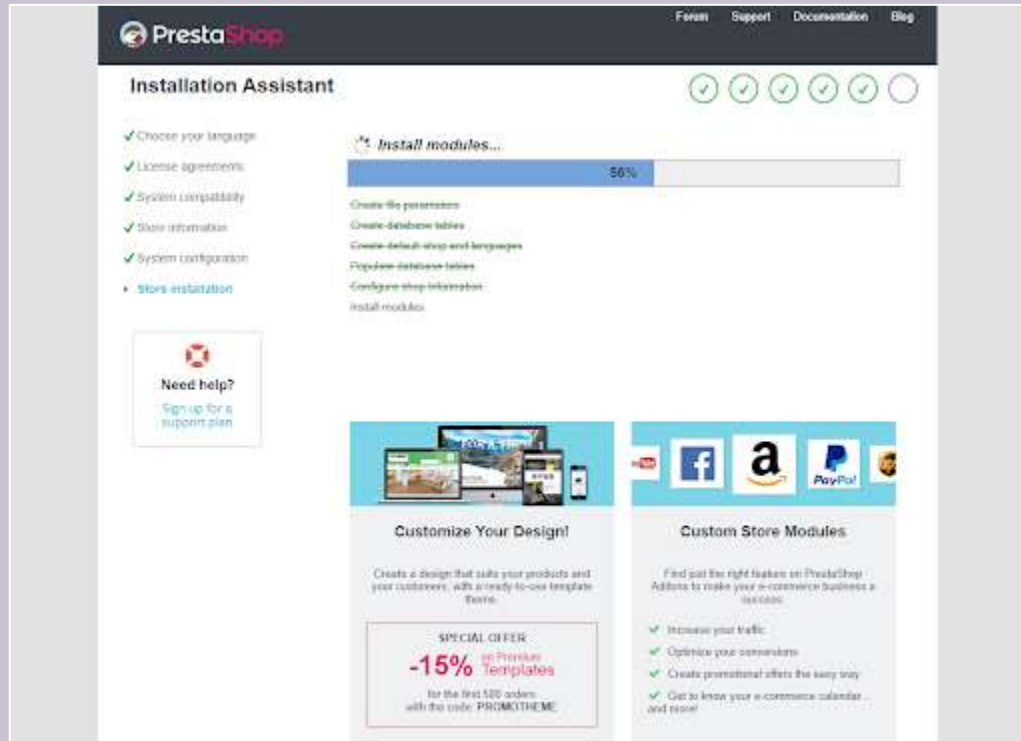

### Step 4: Installing PrestaShop with the Installation Assistant

The screenshot shows the 'Installation Assistant' interface for PrestaShop. The progress bar at the top indicates that the first three steps (Choose your language, License agreements, System compatibility) are completed, and the current step is 'Store information'. The 'Information about your Store' section includes fields for 'Shop name' (set to 'CLONED'), 'Main activity' (set to 'Fashion and accessories'), 'Install demonstration data' (set to 'No'), 'Country' (set to 'Denmark'), and 'Enable SSL' (set to 'Yes'). Below this is the 'Your Account' section with fields for 'First name' (set to 'Helen'), 'Last name' (set to 'Aho'), 'Email address' (set to 'helo@prestashop-8'), 'Shop password', and 'Repeat to confirm'. A 'Need help?' button is visible on the left. At the bottom, there is a 'Back' button and a 'Next' button.

The screenshot shows the 'Installation Assistant' interface for PrestaShop. The progress bar at the top indicates that the first four steps (Choose your language, License agreements, System compatibility, Store information) are completed, and the current step is 'System configuration'. The 'Configure your database by filling out the following fields' section includes fields for 'Database server address' (set to 'localhost'), 'Database name' (set to 'prestashop'), 'Database login' (set to 'prestashop'), 'Database password' (set to 'prestashop'), 'Tables prefix' (set to 'ps\_'), and 'Drop existing tables' (checked). A 'Test your database connection now!' button is present. Below the button, a green bar indicates 'Database is connected'. At the bottom, there is a 'Back' button and a 'Next' button.

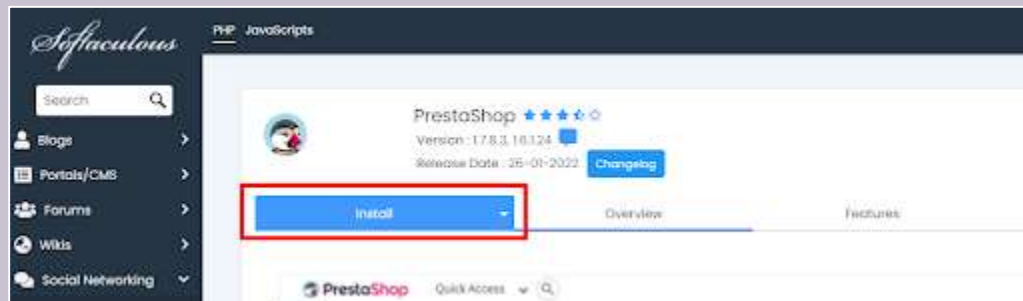

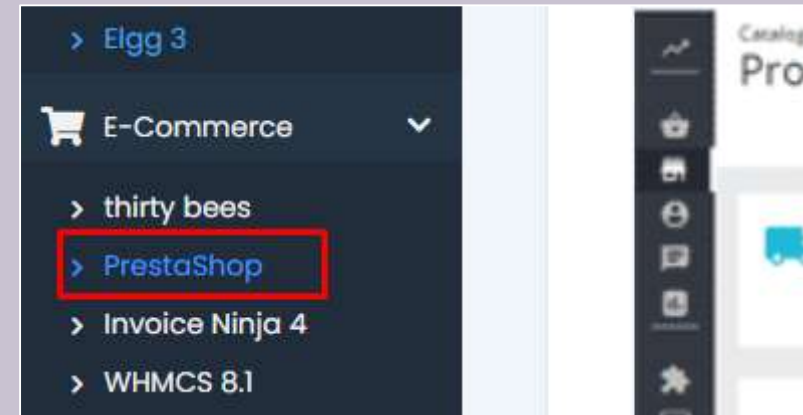

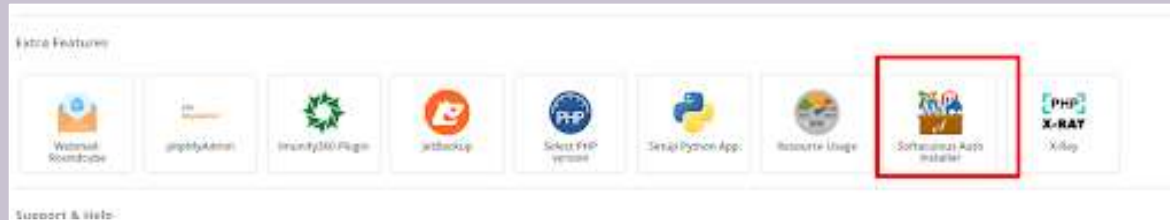

## Manual Installation via MySQL & FTP

### Step 4: Installing PrestaShop with the Installation Assistant

## One-Click Installation with Hosting Provider

### The Process

# How to Install PrestaShop?

## One-Click Installation with Hosting Provider

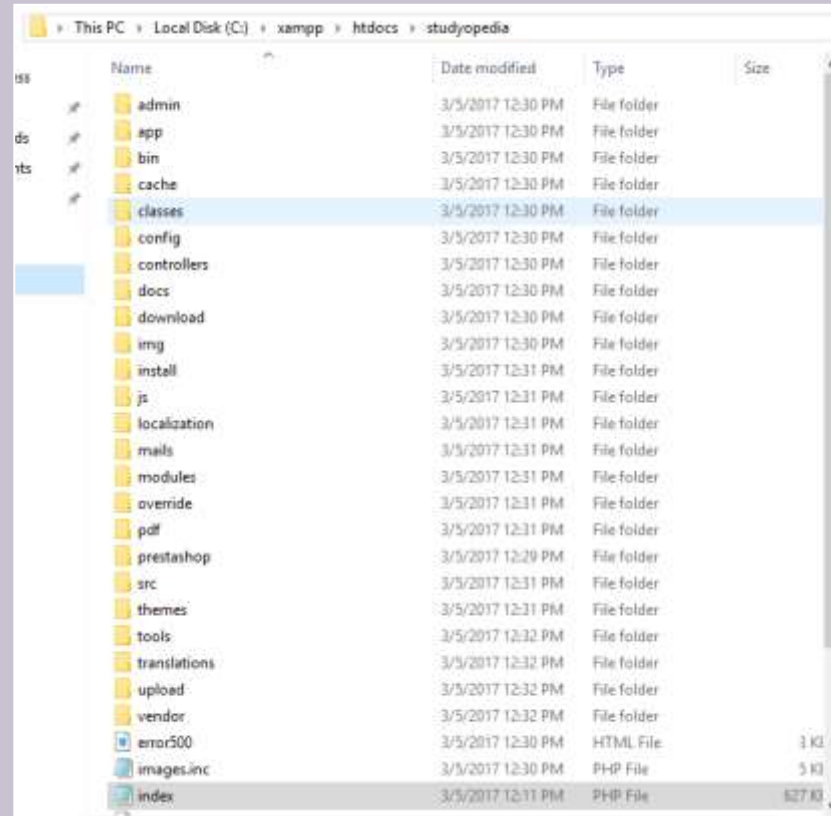

The screenshot displays the PrestaShop installation wizard, specifically the 'Database Settings' step. The interface is clean and modern, with a light blue header and a white main content area. The wizard is divided into two main sections: 'Database Settings' on the left and 'Server Settings' on the right. The 'Database Settings' section includes fields for 'Database Name', 'Database Username', and 'Database Password'. The 'Server Settings' section includes fields for 'Server Name', 'Server IP Address', 'Server Port', 'Server Type', 'Server Version', and 'Server Language'. A 'Next' button is visible at the bottom right of the 'Server Settings' section. The overall layout is intuitive and user-friendly, guiding the user through the installation process.

## Localhost Installation

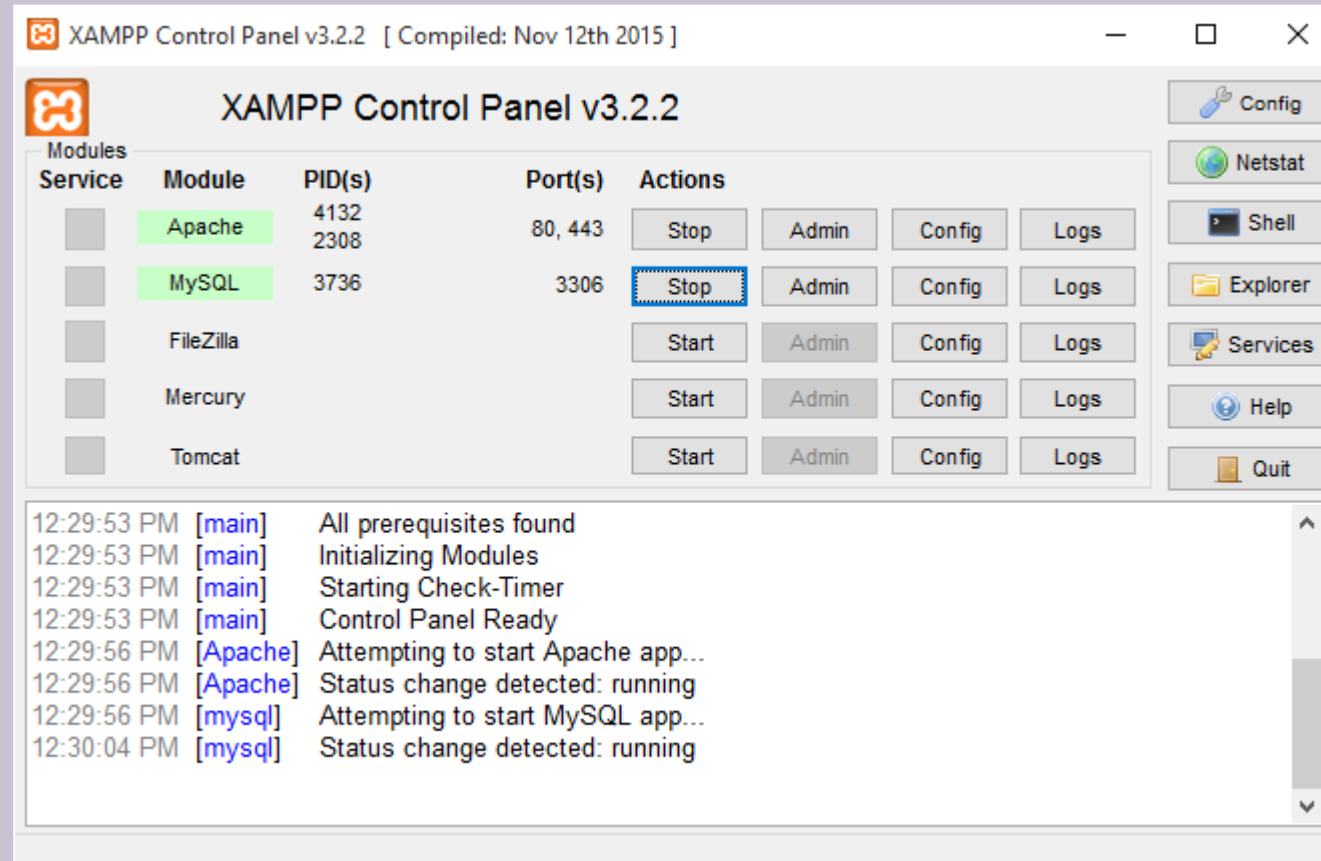

### The Process

Step 1: Download PrestaShop and put it in C://XAMPP/htdocs/studylopedia/

## Localhost Installation

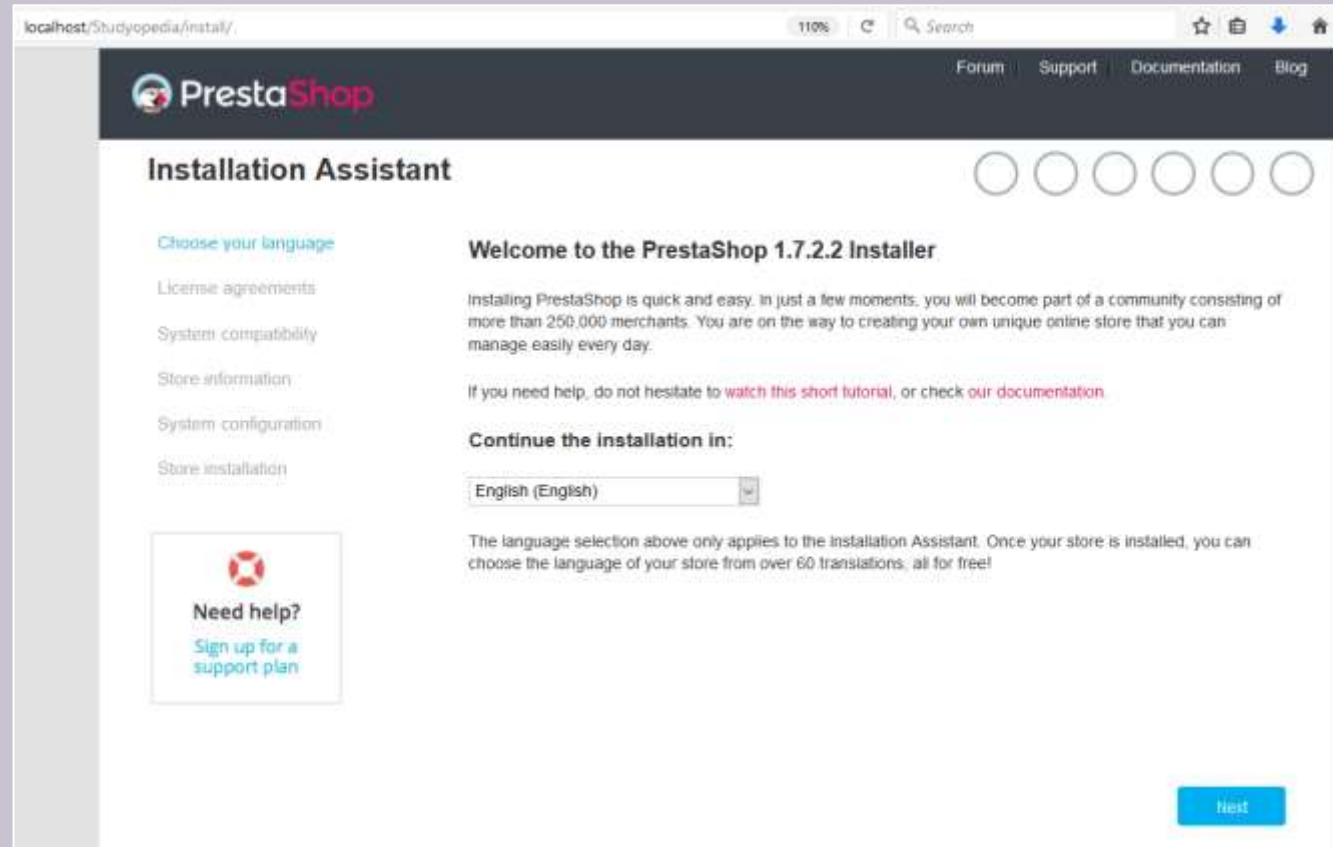

### Step 2: Start Apache and MySQL

## Localhost Installation

### Step 9: Install Demonstration Data & Theme

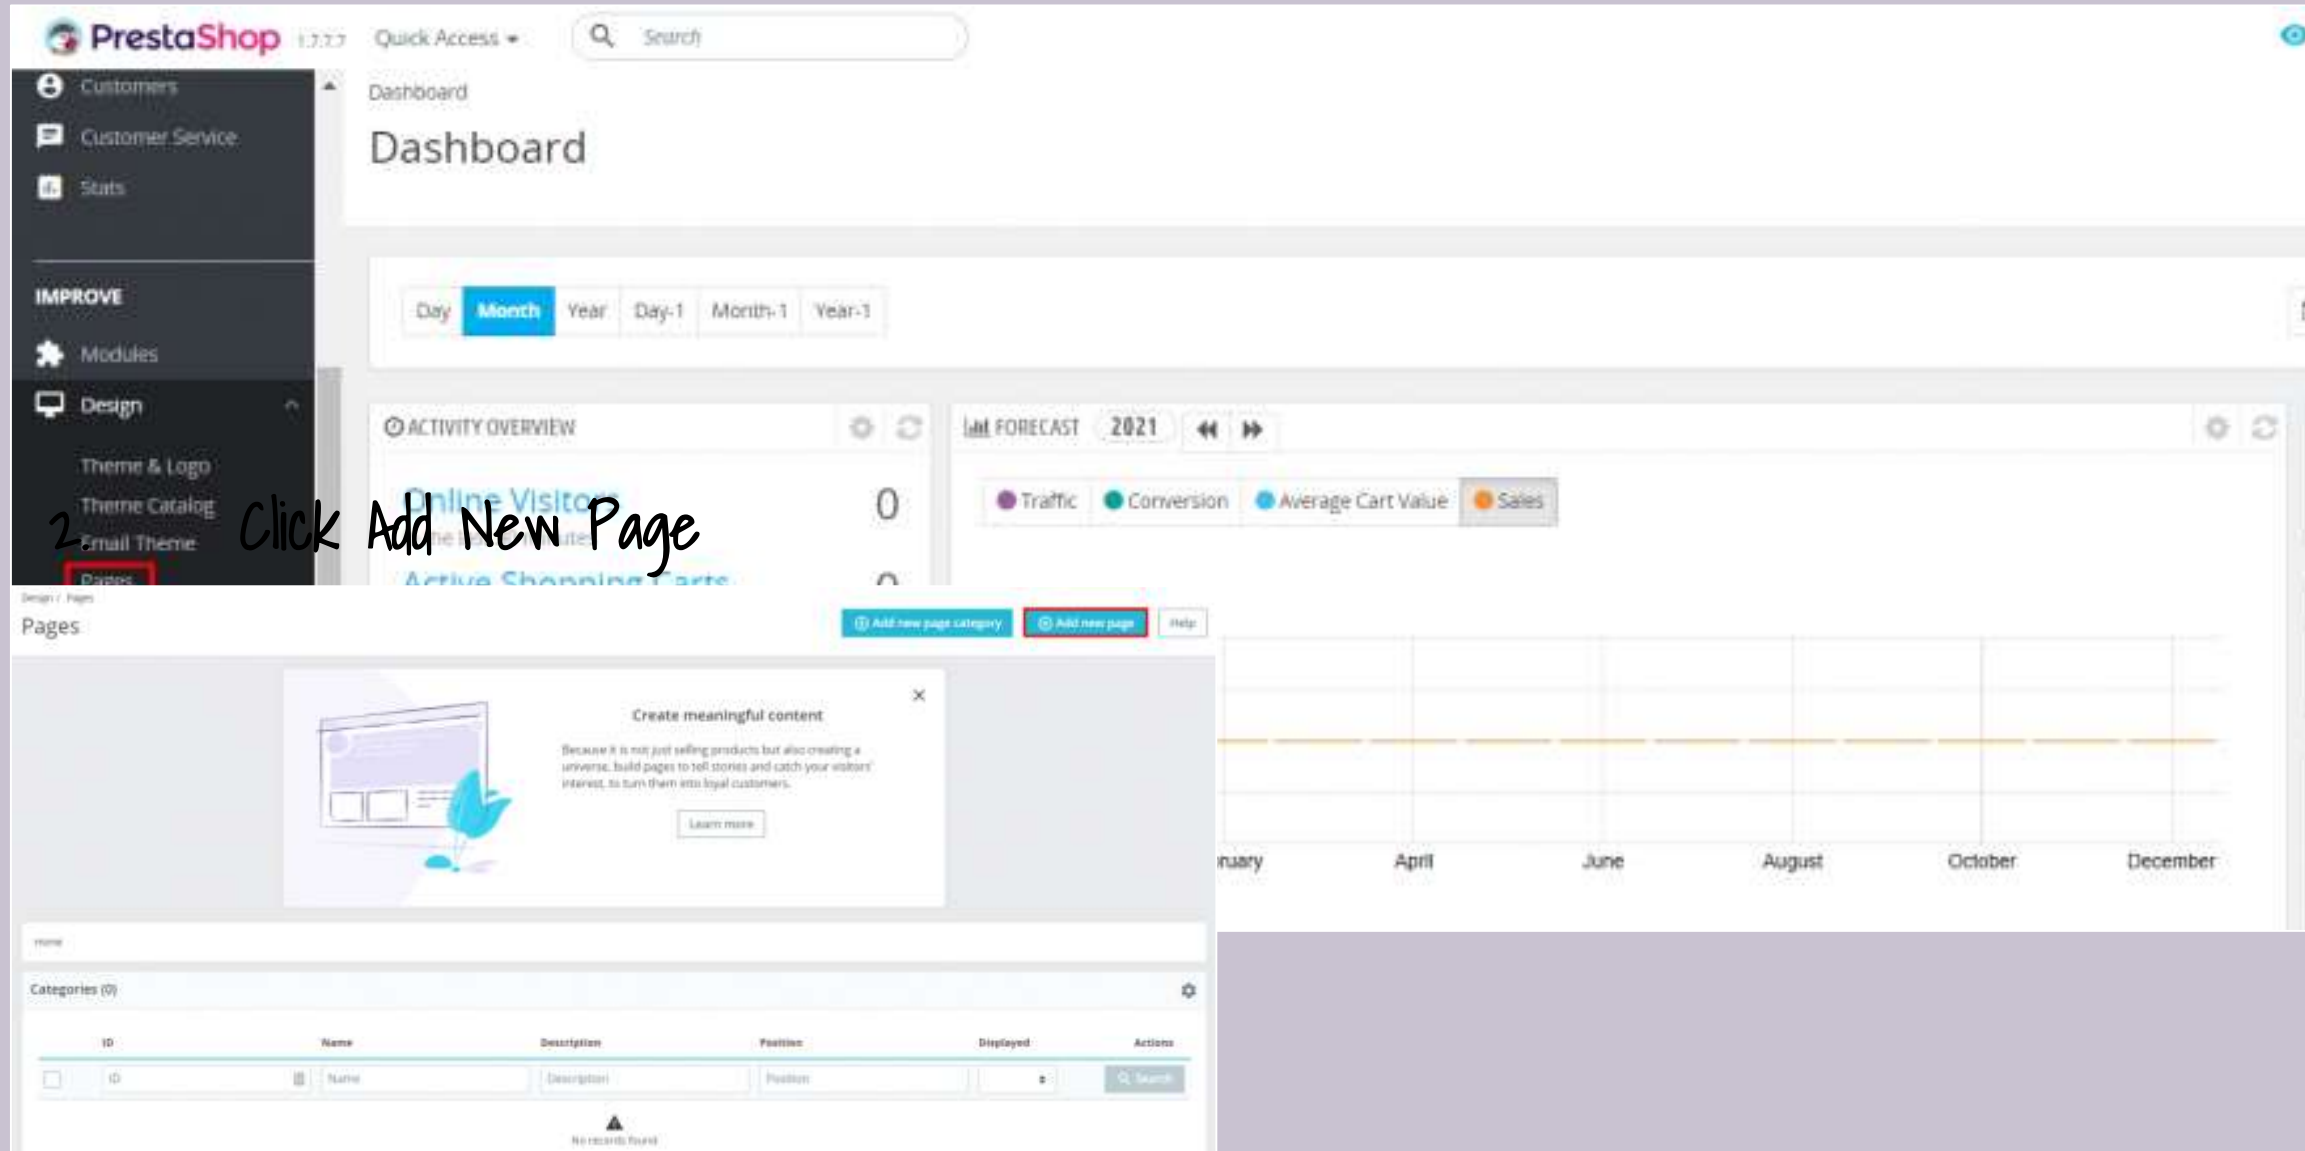

## Localhost Installation

### Step 10: Finish Installation and Delete the Install Folder

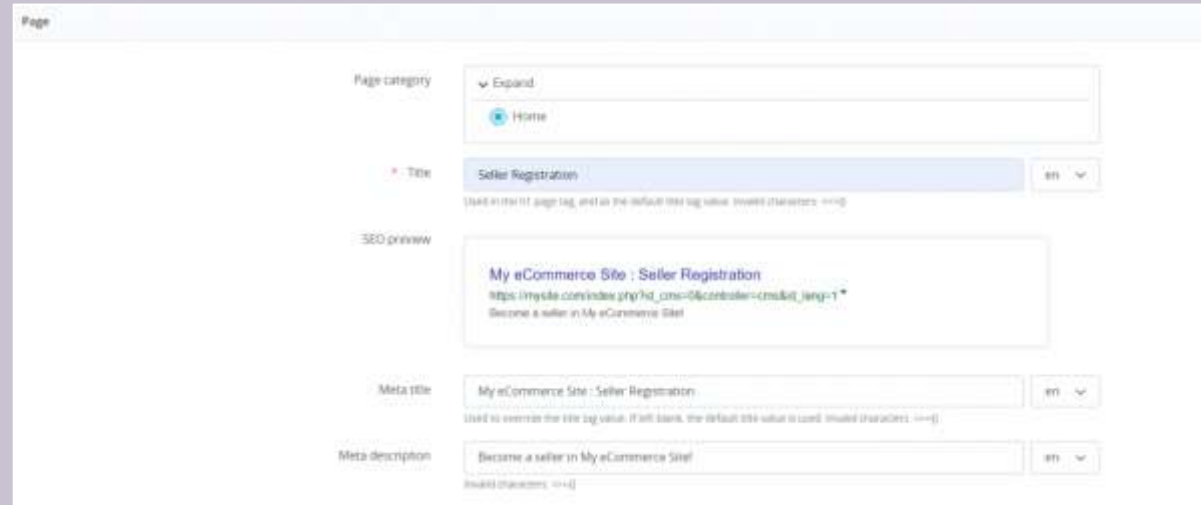

## The Process

1. Set up New Pages. Go to Design -> Pages

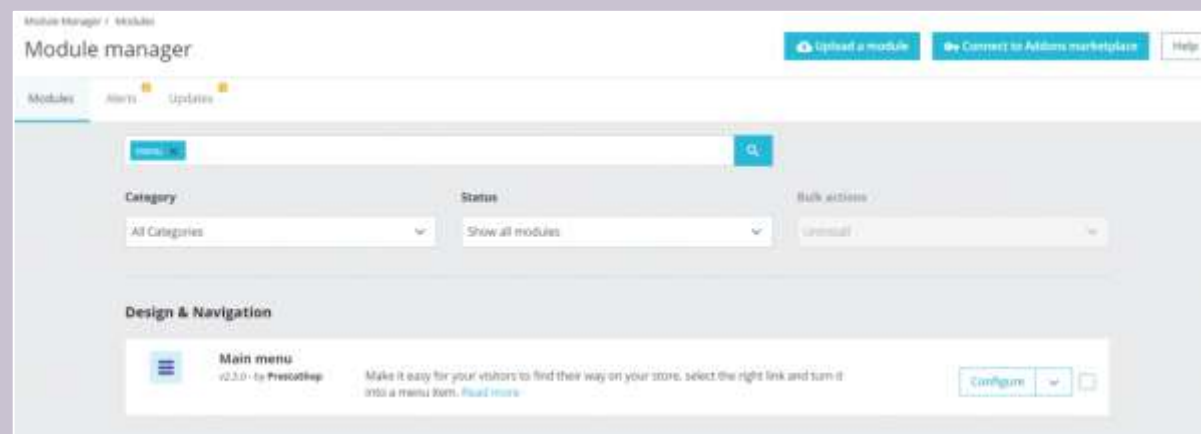

## 3. Customize The New Page

The screenshot shows the 'Page' configuration interface in PrestaShop. It includes the following fields and options:

- Page category:** A dropdown menu with 'Expand' selected, and a 'Home' button with a house icon.
- Title:** A text input field containing 'Seller Registration' and a language dropdown set to 'en'.
- SEO preview:** A preview box showing the page title 'My eCommerce Site : Seller Registration', the URL 'https://mysite.com/index.php?id\_cms=0&controller=cms&lang=1\*', and the meta description 'Become a seller in My eCommerce Site!'. It includes a 'Refresh' button.
- Meta title:** A text input field containing 'My eCommerce Site : Seller Registration' and a language dropdown set to 'en'.
- Meta description:** A text input field containing 'Become a seller in My eCommerce Site!' and a language dropdown set to 'en'.

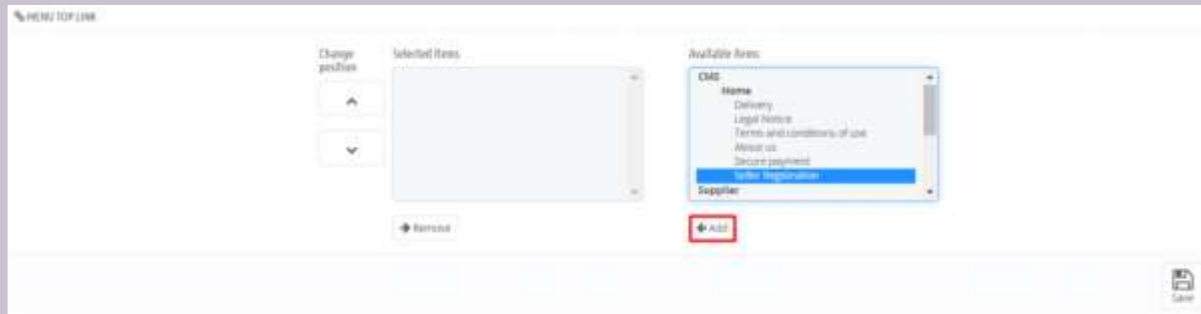

## 4. Navigate to Modules -> Module Manager

The screenshot shows the 'Module Manager' interface in PrestaShop. It includes the following elements:

- Module manager:** The main title of the section.
- Actions:** Buttons for 'Upload a module', 'Connect to Addons marketplace', and 'Help'.
- Navigation:** Tabs for 'Modules', 'Alerts', and 'Updates'.
- Search:** A search bar with a magnifying glass icon.
- Filters:** A 'Category' dropdown set to 'All Categories', a 'Status' dropdown set to 'Show all modules', and a 'Bulk actions' dropdown set to 'Uninstall'.
- Design & Navigation:** A section titled 'Main menu' with a version indicator 'v2.3.0 - by PrestaShop' and a description: 'Make it easy for your visitors to find their way on your store, select the right link and turn it into a menu item. [Read more](#)'. It includes a 'Configure' button and a 'Help' icon.

## 5. Configure Module & Save

## 6. Go to Design -> Pages & Click on the Pen Icon

Pages in category "Home" (5)

# Install PrestaShop Themes

Luckily, designing a beautiful shop in PrestaShop doesn't require advanced design or technical skills. The platform offers lots of appealing themes to choose from.

The screenshot displays the PrestaShop Official Addons Marketplace interface. At the top, there's a dark blue header with the PrestaShop logo, navigation links (Modules, Templates, Services, Packs by PS, First visit?), and user options (Log in / Sign up, a shopping cart icon with 0 items). Below the header is a search bar labeled "Your search".

The main content area is titled "PrestaShop Templates" and includes a sub-header "Customize your store in just a few clicks and build your customers' trust with a professional design! For 92% of internet users, your store's graphic design is the priority for reassuring visitors. Our ready-to-use themes allow you to boost conversions with a recognizable design that matches your products and your customers' expectations."

On the left sidebar, there's a "PrestaShop Compatibility" section with links for versions 1.7.6, 1.7.5, 1.7.4, 1.7.3, and 1.7.2, and a "See more" link. Below this is a "Categories" list with various store types like Premium Templates, Fashion & Shoes, Electronics & Computers, Food & Restaurant, Drink & Tobacco, Home & Garden, Jewelry & Accessories, Health & Beauty, Sports, Activities & Travel, Automotive & Cars, Kids & Toys, Animals & Pets, Art & Culture, Lingerie & Adult, and Gifts, Flowers & Celebrations. At the bottom of the sidebar is a "Theme Language" section with checkboxes for English (English) (2438), Français (French) (2381), Español (Spanish) (2315), and Deutsch (German) (1975).

The main content area shows "2670 themes" and includes a "View" button with grid and list icons, and a "Sort by" dropdown menu. Two theme cards are visible:

- Movic Fashion Store - Prestashop 1.7**: Features a "MOVIC RESPONSIVE" design with a woman's face on the main screen. It has a 5-star rating (128 reviews) and is priced at 79,99€.
- ZOne - Supermarket Online Shop**: Features a "Z.ONE Supermarket Prestashop Theme" with a supermarket layout. It has a 5-star rating (217 reviews) and is priced at 99,99€.

# Install Other Modules

Step 1: Click on the "upload a module" Button

The screenshot shows the PrestaShop admin interface. On the left is a dark sidebar with navigation menus: Dashboard, SELL (Orders, Catalog, Customers, Customer Service, Stats), IMPROVE (Modules, Design, Shipping, Payment, International), CONFIGURE (Shop Parameters, Advanced Parameters), PTM CONTROL CENTER (Add new PTM theme, Update PTM theme/modules), and BLOG (Posts, Comments). The main content area is titled 'Module selection' and includes tabs for 'Selection', 'Installed modules', and 'Notifications'. A red arrow points from the 'Modules & Services' link in the sidebar to the 'UPLOAD A MODULE' button in the top right corner. Below the arrow, a dropdown menu shows 'Modules & Services' and 'Modules Catalog'. The main area displays a grid of module cards, each with an icon, title, version, developer, description, 'Read More' link, star rating, and price.

Module Name	Version	Developer	Price
Size Guide	v1.1.4	by PrestaShop	\$69.99
Newsletter Pro	v4.5.2	by ProQuality	\$89.99
Knowband - One Page Checkout, Social Login & Mailchimp	v4.0.2	by Community developer	\$89.99
Oct8ne - Online chat	v1.0.14	by PrestaShop Partners	
EU Cookie Law (Notification Banner + Cookie Blocker)	v1.4.10	by Línea Gráfica	
MYFLYINGBOX Express Shipping	v1.0.3	by PrestaShop Partners	

[https://presta-theme-maker.com/wp-content/denerator/prestashop/prestashop1711/admin121/index.php/module/catalog?\\_token=kIzdNnobsUCcBbXmYsiPT459kwTbEOFP35HgA8iKCA](https://presta-theme-maker.com/wp-content/denerator/prestashop/prestashop1711/admin121/index.php/module/catalog?_token=kIzdNnobsUCcBbXmYsiPT459kwTbEOFP35HgA8iKCA)

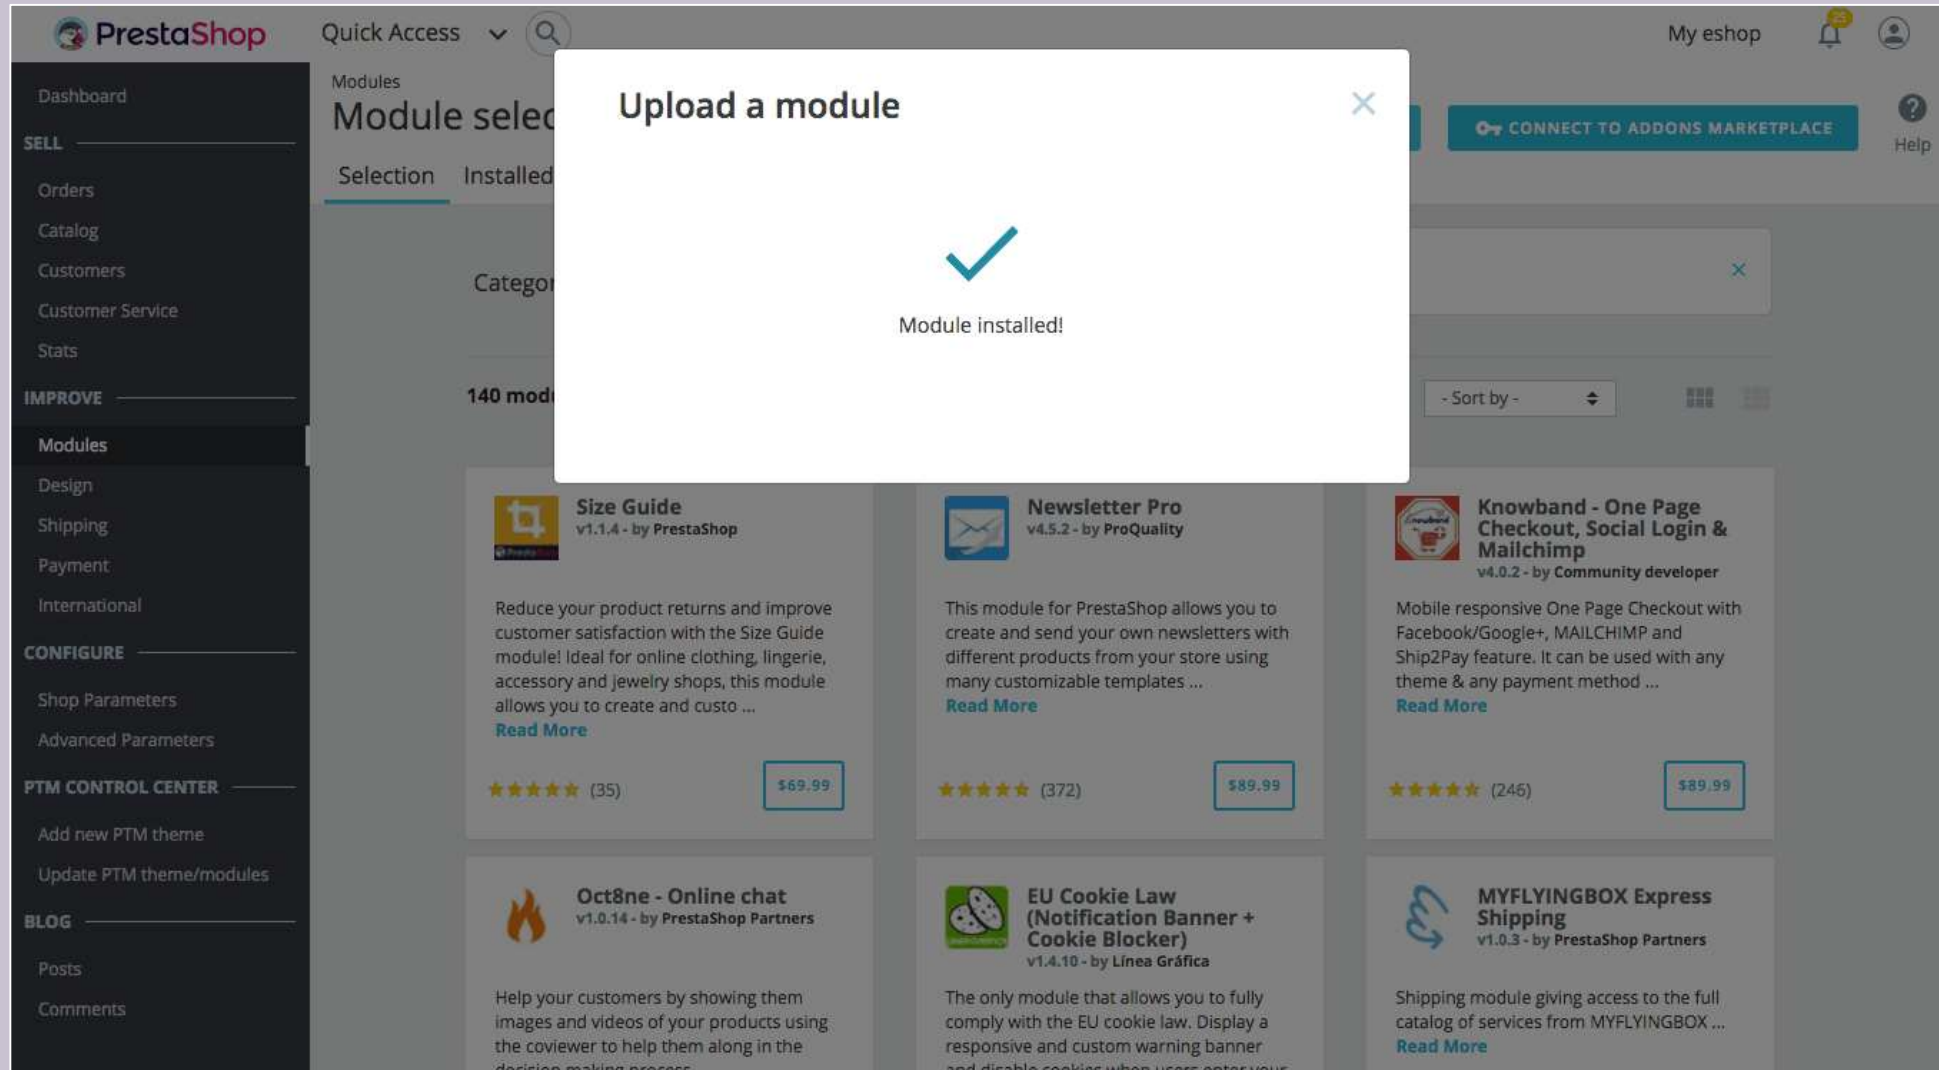

# Install Other Modules

Step 2: Drag And Drop The ZIP of The Module That You Wish To Add

The screenshot shows the PrestaShop administration interface. On the left is a dark sidebar with navigation menus: 'Dashboard', 'SELL' (Orders, Catalog, Customers, Customer Service, Stats), 'IMPROVE' (Modules, Design, Shipping, Payment, International), 'CONFIGURE' (Shop Parameters, Advanced Parameters), 'PTM CONTROL CENTER' (Add new PTM theme, Update PTM theme/modules), and 'BLOG' (Posts, Comments). The main content area is titled 'Module selection' and has tabs for 'Selection' and 'Installed'. A modal window titled 'Upload a module' is centered over the page. It contains a dashed box with a cloud and upload arrow icon, the text 'Drop your module archive here or [select file](#)', and a note: 'Please upload one file at a time, .zip or tarball format (.tar, .tar.gz or .tgz). Your module will be installed right after that.' Below the modal, several module cards are visible, including 'Knowband - One Page Checkout, Social Login & Mailchimp', 'Oct8ne - Online chat', 'EU Cookie Law (Notification Banner + Cookie Blocker)', and 'MYFLYINGBOX Express Shipping'.

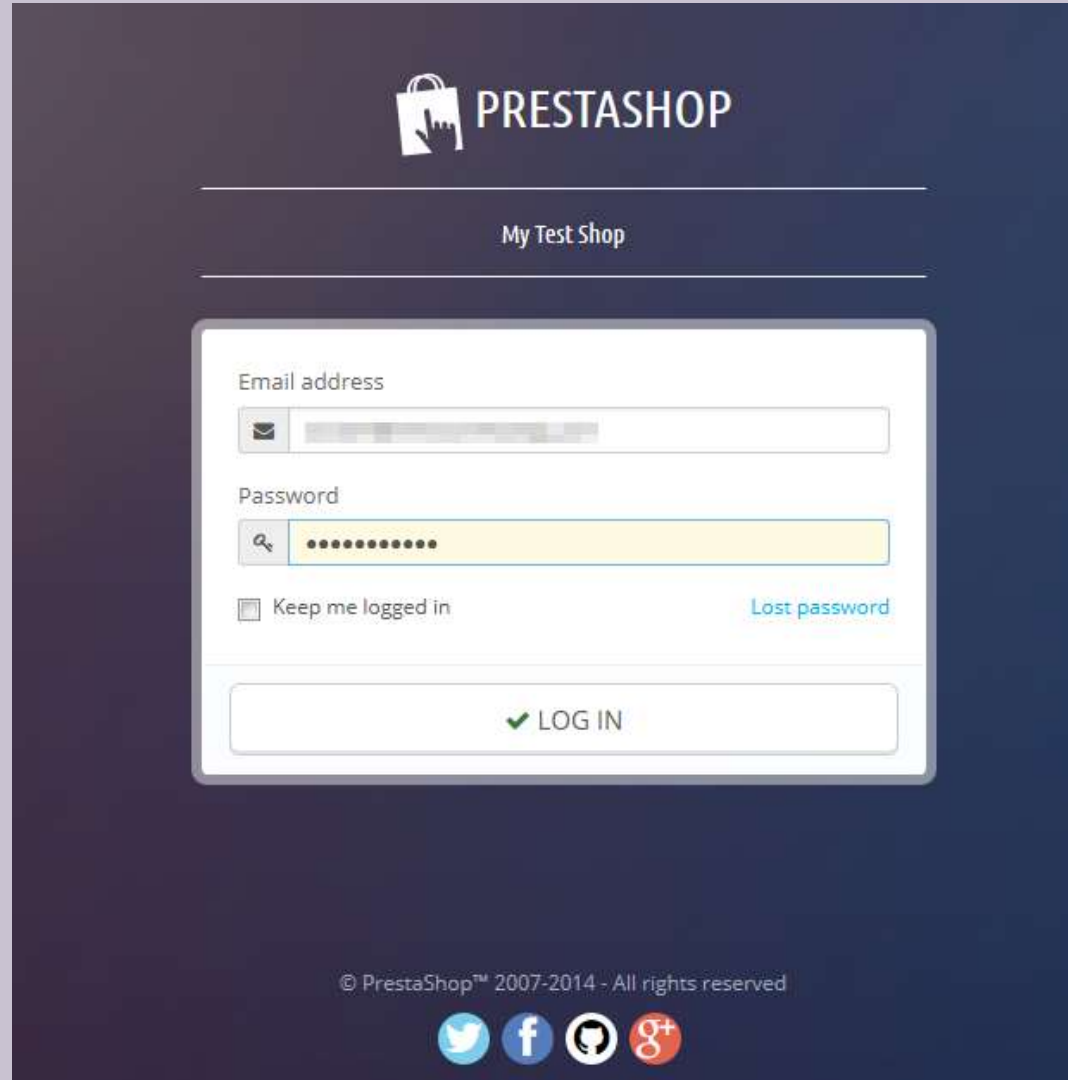

## Step 3: Module Activation Successful

The screenshot displays the PrestaShop admin interface. A white modal window is centered on the screen, titled "Upload a module" with a close button (X) in the top right corner. Inside the modal, a large green checkmark is positioned above the text "Module installed!". The background is a dimmed view of the "Modules" section of the PrestaShop dashboard. The left sidebar contains navigation links under "SELL" (Dashboard, Orders, Catalog, Customers, Customer Service, Stats) and "IMPROVE" (Modules, Design, Shipping, Payment, International). The "CONFIGURE" section includes Shop Parameters and Advanced Parameters. The "PTM CONTROL CENTER" section has links for adding or updating PTM themes/modules. The "BLOG" section includes Posts and Comments. The main content area shows a "Module selection" tab with a list of available modules. Visible modules include "Size Guide" (v1.1.4 by PrestaShop, \$69.99), "Newsletter Pro" (v4.5.2 by ProQuality, \$89.99), "Knowband - One Page Checkout, Social Login & Mailchimp" (v4.0.2 by Community developer, \$89.99), "Oct8ne - Online chat" (v1.0.14 by PrestaShop Partners), "EU Cookie Law (Notification Banner + Cookie Blocker)" (v1.4.10 by Línea Gráfica), and "MYFLYINGBOX Express Shipping" (v1.0.3 by PrestaShop Partners). Each module card displays its icon, name, version, developer, a brief description, a "Read More" link, a star rating, and the number of reviews.

## Step 1: Log Into Your PrestaShop 1.6 Dashboard

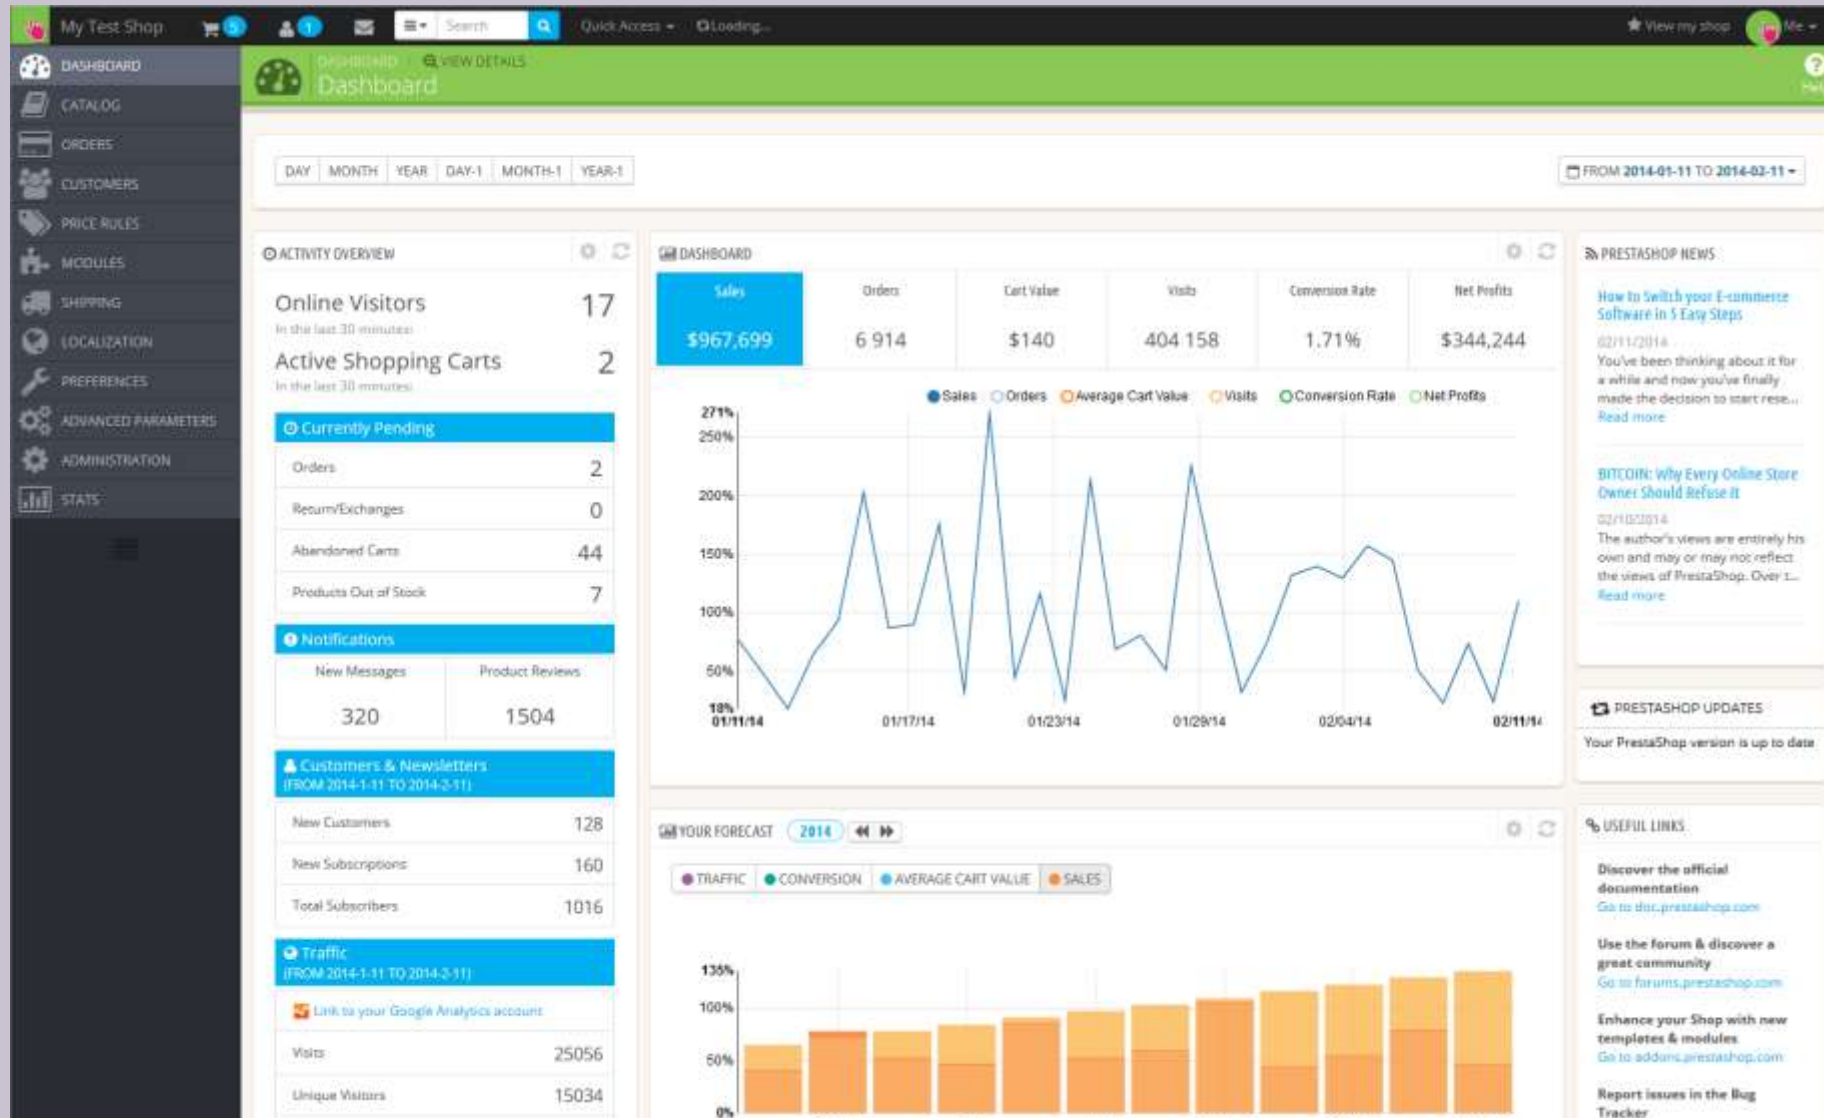

The image shows the PrestaShop 1.6 Admin Login page. At the top, there is a dark blue header with the PrestaShop logo (a shopping bag with a hand icon) and the text "PRESTASHOP". Below the header, the text "My Test Shop" is displayed. The main content area is a white box with a light blue border. It contains the following elements:

- Email address:** A text input field with a small envelope icon on the left.
- Password:** A text input field with a small key icon on the left. The password is masked with dots.
- ☐ **Keep me logged in**
- [Lost password](#)
- LOG IN** button with a green checkmark icon.

At the bottom of the page, there is a footer with the text "© PrestaShop™ 2007-2014 - All rights reserved" and four social media icons: Twitter, Facebook, GitHub, and Google+.

## PrestaShop 1.6 Dashboard

# Dashboard

- The top bar will look familiar to WordPress users. Here's what it contains:
- A configurable quick access drop-down menu that lets you access important actions and parts of your shop
- A search field to search your entire shop
- The button that says *View my shop* takes you directly to the front end of your web store
- A notification button that, when clicked, shows you the latest orders, new customers, and messages
- The little trophy icon shows your achievements in setting up your online shop
- Finally, the last icon gives you access to editing your profile and helpful resources

## Contd..

- ▣ On the left side, you have access to other parts of your shop.
- ▣ The main part of the screen contains a lot of information about the state of your shop and how to improve it.
- ▣ You can adjust all the statistics you see by changing the time frame at the top to the current or last day, month, or year.
- ▣ You are also able to set a custom time frame and compare it to another like in Google Analytics.
- ▣ If you enable the demo mode in the top right corner, it will populate all the statistics with dummy numbers so you can better understand what they are for.

## Contd..

- Most of the elements are pretty self-explanatory.
- They tell you whether your site is up to date, the number of visitors, shopping carts, orders, sales, top products, and other important shop information.
- Under *Forecast*, you can set goals for yourself and PrestaShop will tell you how close you are to reaching them.
- The little gear symbol in the upper right corner allows making adjustments to how they display content.
- Once you know about modules, you can also add more elements like this to your dashboard.
- If any of this is unclear, the big *help* button in the top right corner describes everything on screen in detail.
- You find that on pretty much every screen in PrestaShop, so if you get stuck, this is where you can turn to.

# Create a Product

Of course, when running an online shop, creating and managing products is one of the most central issues.

In PrestaShop, you find the functionality for that under *Catalog > Products*.

When you click it, you get to the screen shown.

Here, you find a list of all the products on your site.

You can also filter, activate/deactivate, duplicate, and delete them from here.

Main category

- To create a new product, click the button of the same name in the upper right or hit *Ctrl+P*. That gets you to the left screen.
- The first thing you need to do here is to include a name for your product at the top.
- Right next to that, you have a drop-down menu that allows you to determine whether this is a physical product, a product pack (a combination of at least two products already existing), or a virtual product.
-

# 1. Basic Settings

- Click in the field on top where it says *Drop images here* to upload product images. When you have several, you can also choose which one will be the cover. Click on them to add a caption.
- Next, you find a text editor in which you can add a product summary (which will appear on the shop page) and a longer description that will be visible for those looking at the product itself.
- Finally, you are able to add features, brands, and related products. Be aware, that you need to have created those in some of the other menus already in order to be able to choose them here.
- On the right side there are several options for important data:
  - **Combinations** — Here, you determine whether this is a simple product or one where you can choose things like size, weight, color, etc. If the latter, you can configure this under the *Combinations* tab that will appear when you enable this option.
  - **Reference** — This is the reference code for this product, which is important for stock management.
  - **Price** — Determine the price with and without taxes as well as the tax rate. More on how to set these up later.
  - **Categories** — Just like [blog posts](#), assigning categories to products makes them easier to filter and find. Choose from the ones you already have on your site or create new ones.

## 2.Quantities

ⓘ Friendly URLs are currently enabled. To disable it, go to [SEO and URLs](#)

### Redirection page ⓘ

Redirection when offline

No redirection (404) ⌵

ⓘ No redirection (404) = Do not redirect anywhere and display a 404 "Not Found" page.  
Permanent redirection (301) = Permanently display another product or category instead.  
Temporary redirection (302) = Temporarily display another product or category instead.

## 5. SEO

- PrestaShop comes with pretty solid built-in SEO features. Here, you are able to control much of what the product looks like in Google search, including SEO title, meta description, and permalink. You can also set up page redirections if necessary.

## 6. Options

Basic settings

Quantities

Shipping

Pricing

SEO

Options

### Visibility

Where do you want your product to appear?

Everywhere

☒ Available for order

☐ Web only (not sold in your retail store)

Tags

Use a comma to create separate tags. E.g.: dress, cotton, party dresses.

Tags facilitate the product search for customers using the search bar.

Read more

### Condition & References

Condition

New

☐ Display condition on product page

ISBN

EAN-13 or JAN barcode

UPC barcode

### Customization

Customers can personalize the product by entering some text or by providing custom image files.

Add a customization field

### Attached files

Add files that customers can download directly on the product page (instructions, manual, recipe, etc.).

There is no attachment yet.

Attach a new file

- Finally, this screen allows you to add additional options and information to your product:
- Product visibility (product catalog, search, everywhere, none of the above)
- Whether it's available for order and if it's limited to your webshop only
- Tags to help customers find what they want more easily
- Condition (new, used, refurbished) and whether to convey this information
- Additional info like ISBN number, barcode
- Ability to customize product, such as with a custom text or image
- Files belonging to this article, like manual, instructions, or else

Description

Product Details

Add an optimistic touch to your morning coffee and start the day in a good mood! 8,2cm diameter / 9,5cm height / 0.43kg. Dishwasher-proof.

- When everything is fine and you are satisfied, send out the product to your shop by switching the *Offline* button to *Online* (the reverse is also how you unpublish products, of course). And here's the finished result:

# Adjust Your Design

## 1. Check Theme & Logo

- ▣ Our first stop is *Design > Theme & Logo*.
- ▣ Here, you will notice the options at the top to set a logo for the homepage, your customer emails, and invoices. You are also able to set a favicon (the little icon that will appear in browser tabs). It's as easy as clicking *Browse* or *Choose files*, uploading, and then saving afterward. Note the size recommendation in the upper left corner.
- ▣ Below that, you see your current theme and find buttons to visit the theme catalog and modify page layouts. We will get to that shortly.
- ▣ Finally, at the bottom, you see themes available in the PrestaShop marketplace that you can access from here.

## 2. Install and Change Your Theme

- If you want to change the theme of your PrestaShop store, you can find a few themes under *Design > Theme Catalog*. However, in order to get them, you need to go to the [theme marketplace](#), so you might as well do that directly.
- Here, you can filter themes according to your PrestaShop version, shop category, language, and much more. Unfortunately, the official marketplace does not contain any free themes, and prices are between \$60 and \$300.
- However, there are free themes out there, for example, on [Template Monster](#) where you can get some for the price of a social share. The PrestaShop [forums](#) also have a few collections of free themes.
- Once you have settled on a theme (and/or purchased it), back in your shop, click on *+Add new theme* at the top.
- You then have three ways of getting your theme on your site:
  - ☐ Upload it as a zip file
  - ☐ Import it directly from its URL
  - ☐ FTP it into the *themes* folder in your PrestaShop installation and pick it from the drop-down menu
- Once uploaded, it appears in your theme list under *Theme & Logo*.
- A click on *Use this theme* (hover over the new theme and confirm) activates it. After that, when you view your shop, you can see that the content is the same, however, the design has changed.

### 3. Choose Page Layouts

- *There is a Choose layouts* button below your theme list. When you click on it, you get to a page where you can pick the layout of each of the pages on your site via the drop-down menu. What is available depends on what your theme has to offer.

# 4. Work With Modules

Design / Positions

## Positions

[Transplant a module](#) [Help](#)

Show  Search for a hook

☐ Display non-positionable hooks

### displayAdminAfterHeader

# displayHome

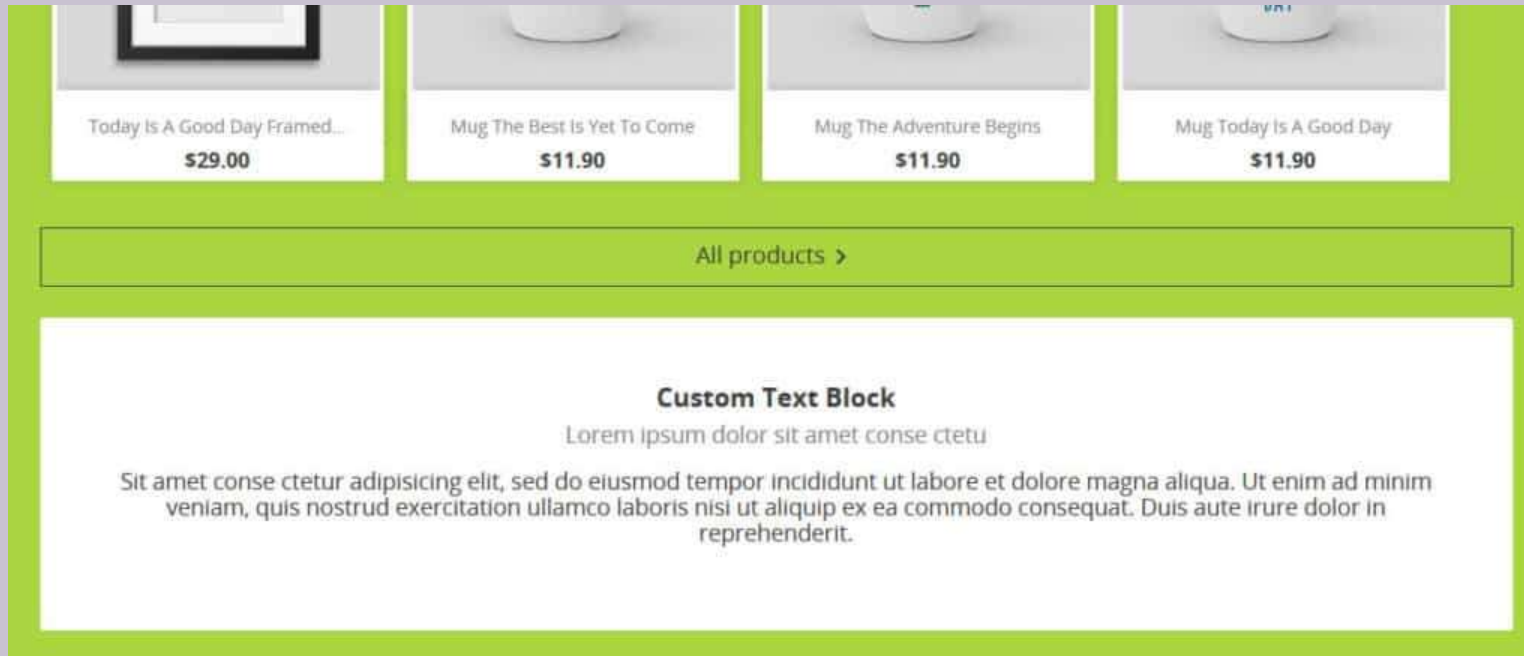

4 Modules

This hook displays new elements on the homepage

<input type="checkbox"/>	1		<b>Image slider</b> - v3.0.0 Adds an image slider to your site.	<a href="#">Edit</a>	▼
<input type="checkbox"/>	2		<b>Featured products</b> - v2.0.0 Displays featured products in the central column of your homepage.	<a href="#">Edit</a>	▼
<input type="checkbox"/>	3		<b>Banner</b> - v2.1.0 Displays a banner on your shop.	<a href="#">Edit</a>	▼
<input type="checkbox"/>	4		<b>Custom text blocks</b> - v4.1.0 Integrates custom text blocks anywhere in your store front	<a href="#">Edit</a>	▼

Hooks are set locations in your theme (both in the front-end and back-end) and modules can be things like widgets, statistics, link lists, subscription forms, image sliders, social buttons, and more.

For example, at the displayHome hook, you find a module called *Custom text blocks*.

- this is the *Lorem ipsum* filled block on the homepage.
- The short description of the hook also tells you its position in the theme. Consequently, if you want to make changes to this block, this is where you do it.

## displayHome

This hook displays new elements on the homepage

4 Modules

<input type="checkbox"/>	1		<b>Image slider</b> - v3.0.0 Adds an image slider to your site.	 Edit 
<input type="checkbox"/>	2		<b>Featured products</b> - v2.0.0 Displays featured products in the central column of your homepage.	 Edit 
<input type="checkbox"/>	3		<b>Banner</b> - v2.1.0 Displays a banner on your shop.	 Edit 
<input type="checkbox"/>	4		<b>Custom text blocks</b> - v4.1.0 Integrates custom text blocks anywhere in your store front	 Edit 

 Unhook

- To get rid of modules completely, click the little arrow button, and choose *Unhook*.
- Alternatively, tick the boxes on the left of several modules and click the *Unhook the selection* button that appears.
- Either way, the block will no longer be there.

Protection Regulation thanks to this module developed by PrestaShop.
